List of Contributors ix

Foreword — *Jacques Chirac* xi

Preface — *René Truhaut* xv

Greetings from the Academy — *André Delmas* xix

Introduction — *Gabriel Nahas* xxi

I. CANNABIS

Chairmen : Professor R. Truhaut
Professor P. Juillet

Use of positron emission tomography to investigate the action of marihuana in the human brain — *N.D Volkow, H.Gillespi, N. Mullani, L. Tancredi, L. Hollister, M. Ivanovic and C. Grant* 3
Editor's note

Heavy marihuana use and recent memory impairment — *R. Schwartz* 13
Commentaries : *C. Spadone*
V. Guien

Cannabis and Schizophrenia : Is there a causal association? — *P. Allebeck* 23
Commentary : *B. Defer*

Marijuana and upper aerodigestive tract malignancy in young patients — *P. J. Donald* 39
Commentary : *L. Luboinski*

The effects of maternal marijuana use during pregnancy on fetal growth — *S. J. Parker and B.S. Zuckerman* 55
Commentary : *H. Tuchmann-Duplessis*

Changes in human spermatozoa associated with high dose marihuana smoking — *W.C. Hembree III, G.G. Nahas, P. Zeidenberg and H.F.S. Huang* 67

Cannabis and immunity — *H. Friedman* 79

Marijuana decreases macrophage antiviral and antitumor activities — *G.A. Cabral and R. Vásquez* 93

Inhibition of macromolecular synthesis by cannabinoids in replicating cells — *B. Desoize, G. Nahas and C. Latour* 107

Maternal marijuana use and leukemia in offspring — *J.P. Neglia, J.D. Buckley and L.L. Robison* 119
Commentary : *J.L. Binet*

II. COCAINE and CRACK

Chairmen : Professor R. Truhaut
Professor R. Houdart

Use of positron emission tomography to investigate cocaïne — *N.D. Volkow, J.S. Fowler and A.P. Wolf* 129
Notes : *M.A. Sherer et al.*
R. Herning et al.
S.R. Levine et al.

Use of SPECT perfusion brain scintigraphy to investigate effects of cocaine on the brain. — *S.S Tumeh, J.S. Nagel, R.J. English, M. Moore and B.L. Holman* 143

Cocaine and sympathoadrenal system — *G. Nahas, R. Trouvé, W. Manger and C. Latour* 151

Cocaine and the renin-angiotensin system — *R. Trouvé, C. Latour and G. Nahas* 165

Cardiovascular tolerance to cocaine and β2- lymphocytes adrenoreceptors — *P. Dingeon, C. Latour, J. Fiet and G. Nahas* 177

Myocardial damage induced by cocaine administration of a week's duration in the rat — *M. Maillet, D. Chiarasini and G. Nahas* 187

Cardiovascular complications of chronic cocaine abuse — *R. Virmani* 199

Cocaine and the heart : Clinical and Pathological Correlations— *S.B. Karch* 211

Psychiatric syndromes produced by cocaine — *C. O'Brien and G.E. Woody* 219
Commentary : *X. Laqueille*

Maternal and fetal effects of cocaine abuse — *M. Finster and H. Pedersen* 233
Commentary and notes : *R. Henrion*
I.J. Chasnoff and D.R. Griffith
M.B. Bracken et al.
M.L. Adams and T.J. Cicero

III. OPIATES

Chairmen : Professor R. Bourdon
Professor R. Truhaut

Psychometric testing and CT scans of long term opiate addicts — *J. Strang and H. Gurling* 249
Commentary : *D. Frédy*

Opiates : Immunodepression and genotoxic effects — *A. Falek, R.M. Donahoe, D.A. Shafer and J.J. Madden* 261

Mechanisms of opiate-induced immunodepression. Current concepts — *M. Hamon* 277
Notes : *P. Peterson, B. M. Sharp et al.*

Opiates during pregnancy : neurobehavioral effects in the offspring — *D.E. Hutchings* 285
Commentary : *M. Auroux*

Opiates and psychopathology in therapeutic communities — *M.S. Rosenthal* 297
Commentary : *P. Olié*

Concluding remarks — *Gabriel Nahas* 307
